Done in a Day are regional events held simultaneously across the conference offering training, nurture and support for those in ministry with children; either as pastors, staff or volunteers. There is about 1 1/2 hours for the training material which should include places for conversation and group sharing.

The theme this year is "Creating a Discipleship Pathway for Children". The Video Presenter will be Rev. Kathy Pittenger, Children's Initiatives Coordinator, Michigan Conference and author of *Developing an Intentional Discipleship System for Children*.

Come and sit at the table and share how you are intentionally making disciples now and how you hope to in the future.
